

Tiffany Watson CLC Associates, Inc.

Tiffany Watson CLC Associates, Inc.

- Tiffany Watson is a Project Manager with CLC Associates, Inc. CLC Associates is a full service land development consulting firm offering planning, entitlements, architecture, engineering, landscape architecture and land surveying services. CLC Associates' diverse mix of technical talent fosters a community of collaboration, enabling CLC Associates to lead commercial developments from the beginning stages to successful implementation.
- Tiffany has more than 11 years of experience in the civil engineering field and has developed special knowledge and experience in hydraulics, hydrology, grading and utility design. Over the course of her career, she has been involved in a myriad of different projects, including residential subdivisions, small retail pad sites, and large mixed-used communities. Her diverse experience, and ability to blend client needs with city requirements, has enabled her to develop strong relationships with municipalities and districts across the greater Denver area. As Project Manager, Tiffany leads her engineering team through effective problem-solving and quality control enabling her to offer clients creative and cost-effective solutions throughout the entire design process. Tiffany was recently honored for one such solution in the Colorado Public Works Journal for her unique underground detention facilities at a large, outdoor mixed-use development. These facilities allowed her client to improve upon the existing site's historic flooding problems and to provide valuable above-ground real estate. Tiffany enjoys the challenges that arise with all of her projects and clients. She strives to work hard for her company and clients, and they should only expect the best result possible when working with Tiffany.
- Tiffany is an active member of ICSC where she currently serves on the Alliance Committee.
